

**Q8. What is your objective in bringing the case?**

To expedite the global elimination of leaded petrol, thus achieving the primary goal of the UNEP PCFV,

**Q9. Are there any additional details that you wish to bring to the attention of the UK NCP and the company?**

There is ample evidence in the Chronology – Making Leaded Petrol History, which would have been available to the founder/s of TetraBOOST Ltd. even before the company was founded, which should have been adequate to discourage the founding of the company. Any amount of research done prior to going into this business would have told the founder/s that there is no future for leaded fuel.

In addition to ensuring that all the information above has been provided, I also confirm that:

a) I am aware that all the information I provide to the UK NCP will be shared with the company. I do not wish to make an exception or keep information confidential.

b) I understand that the UK NCP's approach to resolving complaints is in the first instance to facilitate conciliation or mediation between the complainant and the company.

Signed:

Elizabeth O'Brien  
President, The LEAD Group Inc.  
Partner, Partnership for Cleaner Fuels and Vehicles (PCFV) of United Nations Environment Programme (UNEP)
